# WE'RE HERE TO MAKE A DIFFERENCE

AGDA is the peak national organisation representing the Australian communication design industry.

With our members distributed throughout the creative, visual communications, applied design and technology sectors, it is dedicated to advancing the profession through an interrelated program of local, national and international activities in education, advocacy and professional development.

Founded in 1988 by a small, but passionate group of Melbourne-based designers, it didn't take long before they were joined by fifty designers from across the country, and marched into history when they joined together on stage at the Mildura Conference to symbolise their solidarity and project their vision for the future.

**Our core purpose is the constant development and championing of the professional standing and creative excellence of the Australian design industry.**

We're here to make a difference.

# WE'RE THE CONNECTING FORCE THAT UNITES OUR INDUSTRY

We are an open community of creative minds; we're designers, thinkers, doers, makers, writers, speakers, managers. We're business owners, mentors, students, CEOs, artists and educators. We're diverse, and we're ambitious.

We're for Australian design and designers. But we are also fully open to the world around us. A world of great change and even greater opportunity...

We champion excellence in Australian design, setting and upholding world leading standards in strategic thinking, professional practice, education and craft. Because we believe great design can change lives, drive business and make the world a better place.

We partner with fellow organisations to achieve maximum impact, sharing the best of Australian design with the world, and bringing the best of the world back home. Because we believe there should be no barrier to the world's leading ideas, education and people.

**We connect, support and inspire our creative community to drive change and take the future of design into their own hands.**

AGDA is the connecting force that unites our industry. It celebrates the things that make us different and the things that pull us together. It encourages us to ask questions, to challenge the status quo and to work together for the future of Australian design.

We are a perfect balance between unity and diversity.

# WE'RE THE BENCHMARK FOR CREATIVE EXCELLENCE IN AUSTRALIAN DESIGN

When a community-minded bunch of designers got together and formed the idea of AGDA, it was founded in a world without mobile phones, computers, internet or climate change.

Thirty years on, everyday, every hour, seems like an awards day. As designers we are bombarded by tweets, pokes and flashes of what's new, what's hot. Numerous examples of award winning work are everywhere and they wash over us all from all corners of the globe.

Sophisticated design and creative education have overwhelmed us with an abundance of design talent, which in turn have pushed us all to think, strive and be better at what we do. In one day, one tweet, one internet post, a studio can achieve an extraordinary amount of recognition, feedback and publicity.

It is in this space that the AGDA Design Awards were born.

PARTNERSHIP  
OPPORTUNITIES  
OVERVIEW

Each year, AGDA runs dozens of speaker tours, seminars, workshops, mentoring programs and social get-togethers, in every capital city of Australia. Our total annual attendances are in excess of four thousand across all capital cities. We present to a solid mix of emerging designers, seasoned practitioners and studio owners.

We don't just cater for our members. Most events are open to anyone who is interested. Of course, they'll have to pay more, and they gladly do. We are well supported by the wider design community with all of our activities.

All of our events have been curated, refined, managed and rolled out by our national events team, in conjunction with our volunteer regional councils. They are created by the same community they are designed for. Some events are tailored specifically to students and graduates, while others are best suited to business owners and creative directors.

Outside of our own events, we partner with Sydney Design, Melbourne Design Week, VIVID Sydney, Adelaide Fringe, Emergence WA, and The Design Conference to give our members access to world class speakers and seminars

If you're thinking this all sounds like too much hard work, we certainly don't ignore the social side of things. Not at all. We believe that the personal development that comes from social interactions with your peers is a crucial element in forging a resilient design community. Regular gatherings at local tap houses and restaurants keep us connected and in touch.
